

# MedImpact Safe Harbor Preventative Drug List

This list includes medications identified as those most likely to qualify as “preventive” based on the U.S. Department of Treasury Department/IRS guidance. This list may not include all medications considered preventive or every health condition for which a preventive drug may be prescribed. At this time, neither MedImpact nor your health plan can guarantee which medications will satisfy U.S. Treasury Department definition for preventative safe harbor medications. Please also note:

- Utilization management (ie. prior authorization, step therapy, and quantity limits) may apply to listed medications based on benefit design
  - Use of generics may be required depending on plan design
  - Some strengths or dosage forms may not be included
  - Certain products or therapeutic categories may not be covered
  - Brand and generic status may not be current due to the changes in the market
  - This list is subject to change without prior notice
  - Regardless of their appearance in this document, please contact member services at the number on your prescription benefits card should you have any questions regarding coverage
